

Virtual Machine

Steps to setup CentOS VM:

1] Access URL: <https://www.onworks.net/>

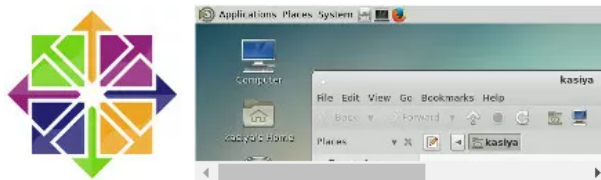

2] Select CentOS workstation by clicking on Enter shown below:

Top OS for Cloud

3] Click on RUN ONLINE

CentOS Workstation

RUN ONLINE

OnWorks CentOS Workstation online is a community of open source contributors and users. Typical CentOS users are organisations and individuals that do not need strong commercial support in order to achieve successful operation. CentOS is 100% compatible rebuild of the Red Hat Enterprise Linux, in full compliance with Red Hat's redistribution requirements. CentOS is for people who need an enterprise class operating system stability without the cost of certification and support.

4] Click on Start button shown below to get the VM setup started

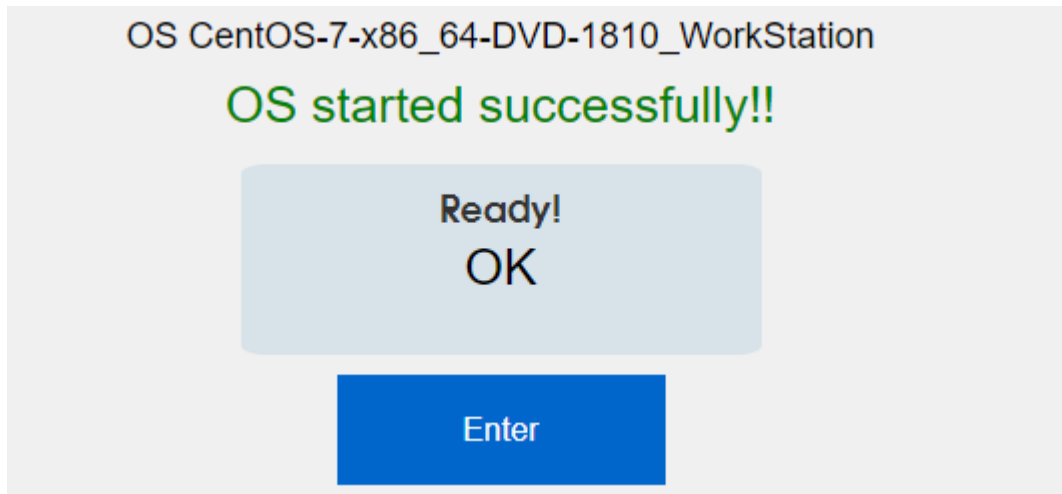

Click button start to run our Operative System

OS CentOS-7-x86_64-DVD-1810_WorkStation

It is a pleasure for us that you run OnWorks, the free hosting provider that allows you to run workstations online with multiple Operative Systems. These Operative Systems you can run can be Ubuntu, Fedora, Debian, CentOS. Read our policies and note that you are going to use free resources so if we detect that you run workstations but you perform no action during more than 5 minutes, we free your session for another user.

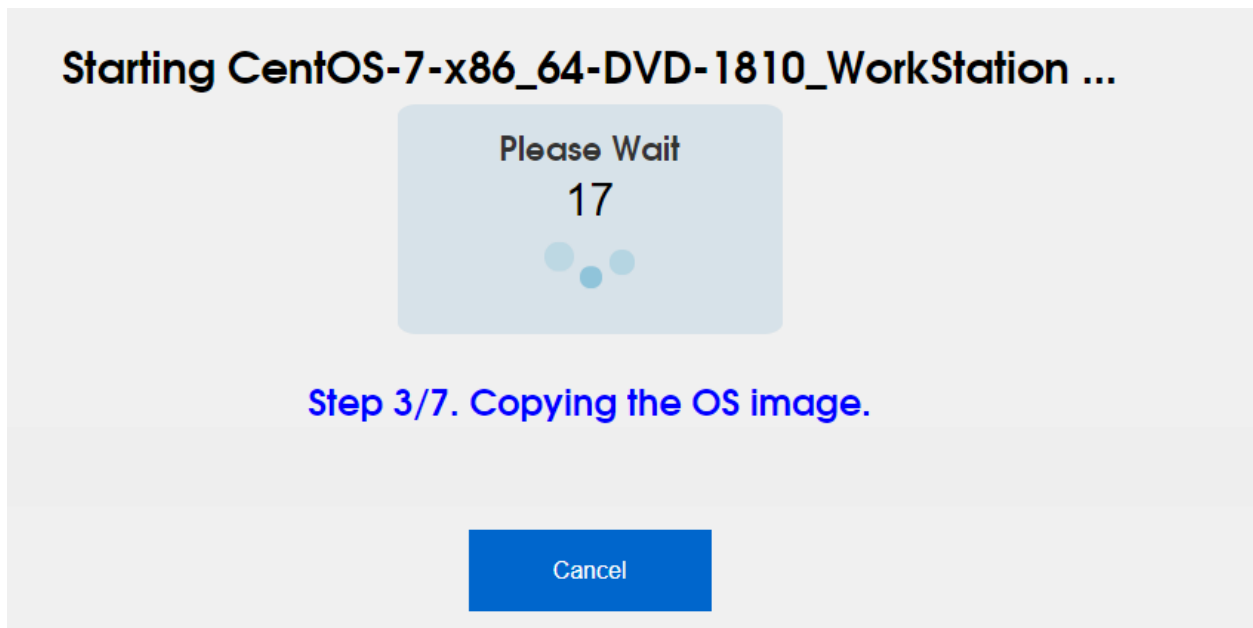

Start

5] After the OS is ready you would see a screen like below:

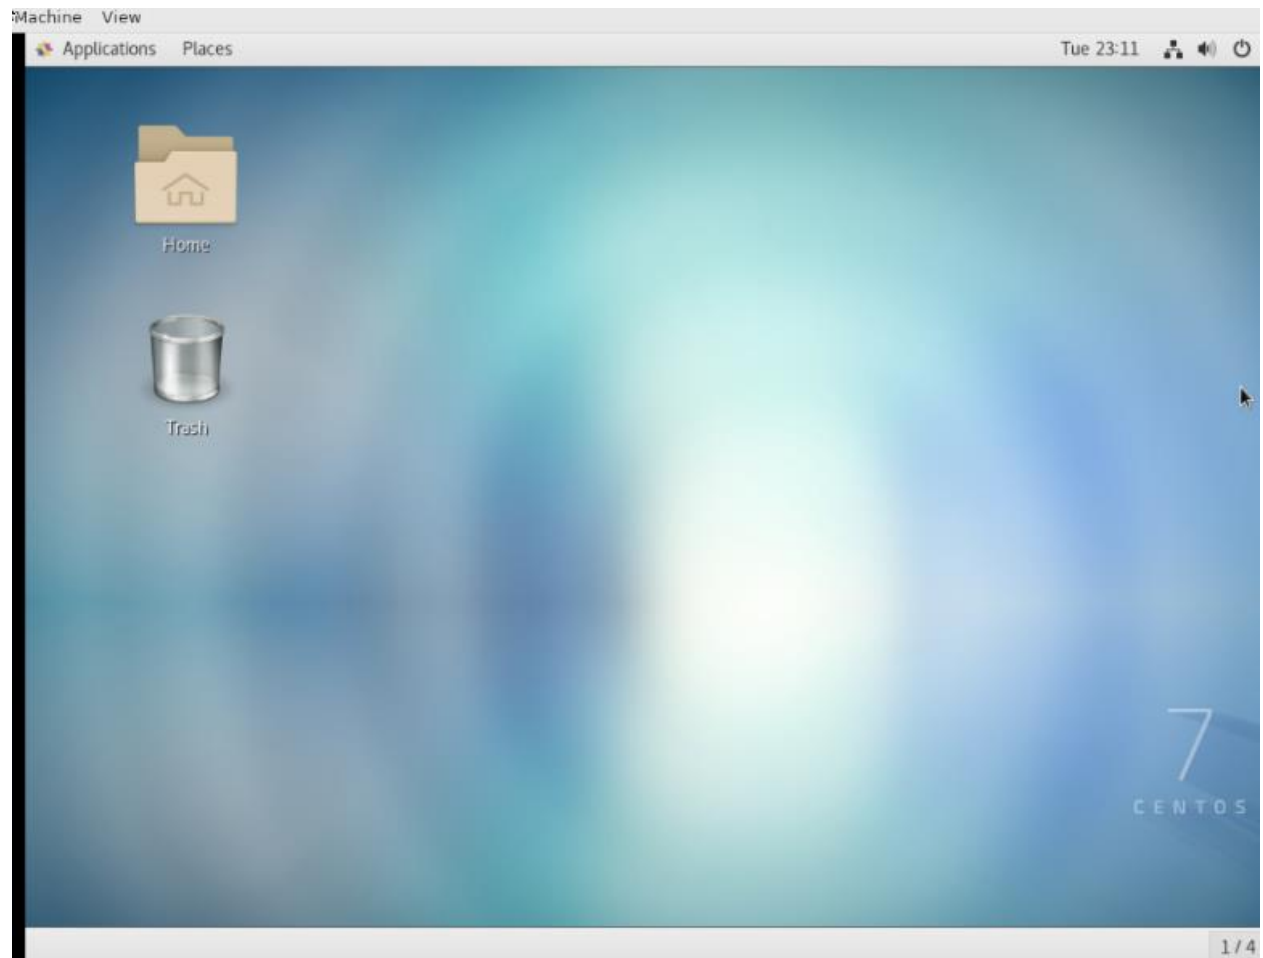

6] Click on Enter

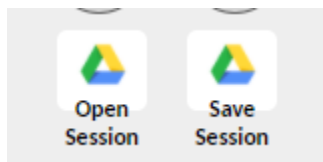

And you would see in Progress screens as below:

7] Once it is complete, the OS would be available and would look like this:

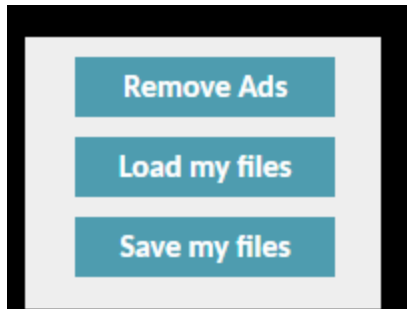

8] There are 2 options as shown below on the left hand side:

i] Open Session: It helps to access the session that was stored on Google Drive.

ii] Save Session: It helps to save the session on Google Drive, so it could be used again.

9] There are 3 options on the right hand side:

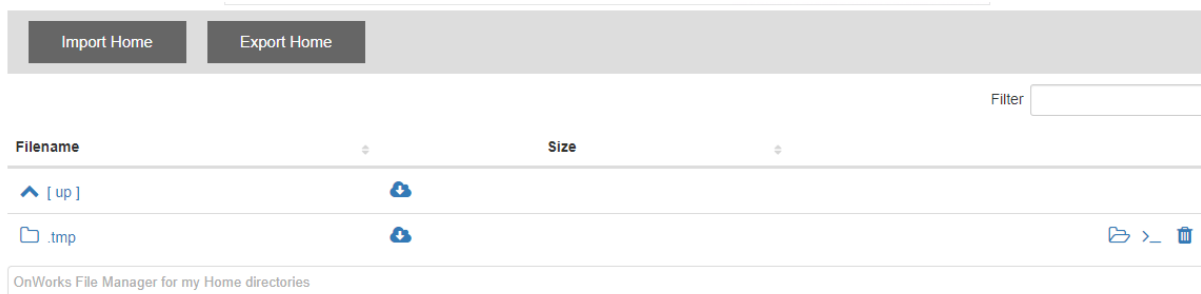

i] Load my files:

To load your files, click in 'Open Session' or inside this session goto <https://www.onworks.net/myfiles.php?username=1605057106> and click 'Import Home'

ii] Save my files:

To save your files, click in 'Save Session' or inside this session goto <https://www.onworks.net/myfiles.php?username=1605057106> and click 'Export Home'

The page looks like this:

iii] Remove Ads: This option requires paid membership to remove ads.
